**Career  
Exploration  
Internship  
Program**

**Enrollment in CEIP  
will help bridge the  
gap between school  
and work**

## Program Information

---

The Career Exploration Internship Program is a 1/2 year, 1/2 credit (or 1 year, 1 credit) non-paid internship open to all juniors and seniors. CEIP provides a link between school and possible careers. The program gives students hands-on experience in a variety of careers so that they can become aware of what it is really like to work in these careers.

## Class Information

---

Students will gain an understanding of the importance of a positive work ethic, timeliness and good study habits. In addition, they will have an opportunity to improve their teamwork and human relation skills. While interning, students may experience several different work stations with several mentors. Relationships will be developed between the mentor and student that may result in recommendations for employment, future careers and/or college.

***A classroom component is also required.***
